For immediate release.

ESS Technologies, Inc. Expands Web Site to Add Machine Videos

March 2010, Blacksburg, VA — ESS Technologies, Inc. has launched its redesigned web site with improved navigation and enhanced product information. The redesigned product pages now include images of installed equipment in addition to providing links to equipment video clips, relevant white papers, and application notes. New information to the site includes detailed capabilities for the key industries ESS Technologies serves and the specialized equipment developed by ESS Technologies for these industries. Also new to the web site is information on our capabilities for integrating OEM equipment, our full turnkey services and custom design capabilities.

About ESS Technologies, Inc.

ESS Technologies, Inc., founded in 1993, specializes in complete packaging line design, equipment manufacturing, and integration. Our expertise includes filling/capping equipment, robotic palletizing systems, horizontal/vertical cartoners, horizontal/vertical case packers, tube fillers, overwrappers, custom designed solutions for medical device assembly and pharmaceutical packaging, and integrated robotics. Engineered for reliability and efficiency, ESS Technologies' products offer you tomorrow's packaging technology today.
